TO WHOM IT MAY CONCERN

Mr. Brett Bentley built a home for me at Lake Lanier in 1993. Cedar siding, glass, more cedar and glass. All workmanship and materials have held up with no apparent deterioration.

In 2002 a substantial expansion took place, also by Brett. Good workmanship, good materials.

I would recommend Brett for any residential type construction, also any commercial that he would accept as a contractor.

Sincerely,

Sam Boggs
